The NIR scanners are equipped with f-theta optics with a focal length of 420 mm. The focal lengths 255 mm and 360 mm can also be provided for an additional charge. For customer optics, specially calculated distance rings are offered at a price of 1200 euros after checking compatibility (back reflections). Optics for UV and VIS can be provided by arrangement at an extra charge.

The customer assumes full responsibility for the device during the loan of the scanner.

An online training course for 2 people lasting 1 day is included in the price. Further expenses such as installation or additional training are offered separately.

**The availability of the scanners cannot be guaranteed.**
