Notes

- NIR scanners are equipped with f-theta optics with a focal length of 420 mm.
- Focal lengths 255 mm and 360 mm can also be provided for an additional charge.
- For customer optics, specially calculated spacer rings are offered at € 1,200 after checking compatibility (back reflections).
- Optics for UV and VIS can be provided by arrangement at an extra charge.
- The customer assumes full responsibility for the device during the rental period.
- An online training course for 2 people (1 day) is included in the price.
- Further services such as installation or additional training are offered separately.
- Availability of scanners cannot be guaranteed.
